Jaco van Stryp

Experienced Software Developer and Technical Team Lead Specializing in C#, ASP.NET, Angular, React, Docker, Kubernetes, MS SQL, Postgres SQL and AWS | Driving Software Stability and Team Excellence.

+64 9 889 3923 | jacovanstryp@gmail.com | LinkedIn Profile

PROFESSIONAL SUMMARY:

Experienced and innovative Software Developer with a proven track record in C#, ASP.NET, Angular, React, Docker, Kubernetes, MS SQL, Postgres SQL, and AWS. Adept at leading teams to deliver high-quality software solutions while specializing in predictive problem-solving and ensuring software stability. Recognized for spearheading the development of advanced automated recovery and monitoring software, significantly enhancing stability for major financial institutions across Africa. Strong leadership skills, demonstrated through effective team management and a commitment to fostering employee growth and development. Passionate about driving excellence in software development and dedicated to continuous improvement and innovation. Thrives on taking initiative and driving projects forward, consistently exceeding expectations and delivering results. With a keen interest in software stability and security, I bring a depth of experience in supporting complex infrastructures and implementing modern coding standards to ensure robust and reliable software solutions.

SKILLS COMPETENCY:

Hard Skills	Soft Skills
• C# Development	• Leadership
• ASP.NET Core	• Team Management
• Docker	• Problem-solving
• Kubernetes	• Initiative
• Angular	• Self-management
• React	• Communication
• MS SQL and PostgreSQL	• Collaboration
• AWS (Amazon Web Services)	• Adaptability
• Software Architecture Design	• Mentorship
• Full Stack Development	• Critical thinking
• T-SQL Development	• Emotional Intelligence
• Database Design	• Conflict Resolution
• Linux Server	• Strategic Thinking
• Windows Server	• Cultural Competency

QUALIFICATIONS AND EDUCATION:

2022 **Diploma in Information Technology (Summa Cum Laude),** Belgium Campus
2018 **National Senior Certificate (Matric),** Eduplex

TRAINING / CERTIFICATION:

2023 **Formal Technical Team Leadership**, Sybrin
2023 **HiPo Program Completion (High Performing Employees Program),** Sybrin
2022 **Advanced SQL**, LinkedIn Learning
2022 **Advanced C# / .NET**, LinkedIn Learning
2021 **Listening to Customers**, LinkedIn Learning

2023	**Developing Credibility as a Leader**, LinkedIn Learning
2021	**Customer Service Mastery**, LinkedIn Learning
2021	**Time Management: Working from Home**, LinkedIn Learning
2023	**PostgreSQL**, LinkedIn Learning
2023	**Docker & Kubernetes**, Udemy
2023	**Coaching Skills for Leaders and Managers**, LinkedIn Learning
2023	**Advanced Web APIs with ASP.NET in .NET Core 6 & .NET Core 8**, LinkedIn Learning
2022	**Entity Framework (C#),** Udemy
2022	**LINQ (C#),** Udemy
2023	**React.js Essential Training,** LinkedIn Learning
2023	**AWS Essential Training for Developers**, LinkedIn Learning
2022	**Advanced Angular**, Udemy

ACHIEVEMENTS:

2023 **Awarded Best Innovator at Sybrin's Year End Function**: for developing software solutions that effectively addressed key challenges, generated significant revenue, and optimized cost and time efficiencies across the company.

2023 **Best Team Leader at Sybrin's Year End Function:** for guiding my team to become the top-performing developers in the company. Through innovative strategies and collaborative teamwork, we surpassed all financial targets for the year, achieving excellence in our work.

2022 **Graduated university with Summa Cum Laude honours**, recognized as the top student upon graduation and throughout multiple academic years. Awarded for consistently achieving excellent marks and being the highest achiever in the majority of subjects, earning a distinguished Summa Cum Laude Diploma.

2018 **Top Student - High School**: I was considered the top student in several subjects such as Information Technology and Computer Application Technology. I've also developed several software for the school while studying.

2018 **Served as the High School Year 12 Ambassador,** acknowledged for significantly enhancing school systems by developing software solutions that streamlined operations and improved efficiency for both students and teachers.

CAREER HIGHLIGHTS:

- Transformed Sybrin's production software stability from inconsistent to the most reliable vendor for banks, minimizing outages and software problems.
- Personally developed **Vitals**, a groundbreaking solution single-handedly, now operational across multiple banks and countries in Africa, revolutionizing software monitoring and automatic recovery.
- Initiated and implemented numerous optimizations and new software solutions, significantly enhancing Sybrin's reputation and reliability within the banking industry.
- Sole contributor to Vitals, a critical software solution recognized for its unparalleled impact on stability in the African banking sector.

PROFESSIONAL EXPERIENCE AND CAREER PROGRESSION:

Software Developer (January 2021 – Present)

Sybrin

Sybrin is a software company that specializes in providing innovative solutions for businesses across various industries. Their offerings typically include software products and services designed to streamline processes, enhance efficiency, and improve customer experiences.

Position	Duration
Software Developer / Technical Lead	August 2022 - Present
Associate Full Stack Software Developer	Aug 2021 – Aug 2022
Graduate Full Stack Developer	Jan 2021 – Aug 2021

Main Responsibilities:

- Developing and maintaining software applications using C#, ASP.NET, Angular, React, NodeJS, Docker and Kubernetes with MS SQL and Postgres SQL as Databases. Highly involved in automation of daily operations to improve customer experience for thousands of users across many banks in several countries across the African Continent.
- Developed Vitals, an advanced Automated Recovery Solution, ensuring near 100% uptime for banking systems across multiple African countries.
- Technical Team Leader: Led a team dedicated to optimizing and improving thousands of production solutions. Led team members in career progression and software development excellence.
- Participating in the full software development lifecycle, from requirements gathering to deployment and maintenance.
- Troubleshooting and debugging software issues and providing timely resolutions. Identified recurrent issues in legacy software across 10 African countries and developed new code and services to optimize or replace unstable software, enhancing stability.
- Writing efficient and scalable code, following best practices and coding standards.
- Working closely with stakeholders to understand their requirements and deliver solutions that meet their needs.
- Keeping up-to-date with the latest technologies and trends in software development.
- Mentoring junior developers and sharing knowledge within the team.
- Ensuring software quality through code reviews, testing, and documentation.
- Contributing to architectural design discussions and decisions.

Full Stack Web Developer (March 2019 – March 2022)

Jaxify Software

Specializes in web development services, focusing on full-stack development using technologies such as C#, ASP.NET, Angular, SQL, and Azure.

Position	Duration
Full Stack Web Developer	March 2019 – March 2022

Main Responsibilities:

- Developing and maintaining web applications using a combination of frontend and backend technologies such as C#, ASP.NET, Angular, React, SQL, and Azure.
- Collaborating with clients or project stakeholders to gather requirements and translate them into technical specifications.
- Designing user interfaces and user experiences (UI/UX) for web applications.
- Writing clean, efficient, and scalable code following best practices and coding standards.
- Integrating third-party APIs and services into web applications.
- Optimizing web applications for performance, scalability, and security.
- Testing and debugging web applications to ensure they meet quality standards and functional requirements.
- Deploying web applications to production environments and managing deployment pipelines.
- Providing technical support and troubleshooting assistance for web applications.
- Keeping up-to-date with the latest web development technologies, trends, and best practices.
- Collaborating with team members, including frontend and backend developers, designers, and project managers, to deliver projects on time and within budget.
- Contributing to the continuous improvement of development processes and methodologies within the company.
- Mentoring junior developers and sharing knowledge and expertise within the team.

HOBBIES AND INTERESTS:

I'm a very enthusiastic person when it comes to software automation and making life easier and have from time to time build a few personal projects to do exactly that. I consider myself a lifelong learner and tend to take a course or two online from time to time to keep myself up to date with modern information. As a Backend and Full Stack Developer, I possess a profound interest in enhancing existing software and optimizing efficiency. My fascination lies in ensuring the stability and security of software, drawing upon my experience in supporting complex systems and understanding modern code stability standards. Additionally, I derive fulfilment from collaborating with others, sharing knowledge, and leveraging my formal leadership skills to foster growth among colleagues.

MIGRATION & INVESTMENT

Migration and Investment New Zealand (Pty) Ltd
267 West Avenue, Centurion, Gauteng, 0157, South Africa
www.migrationandinvestment.com
contactus@migrationandinvestment.com
Reg. No. 2019/142674/07

To whom it may concern,

This serves to confirm that Migration and Investment are managing the immigration process for **Jaco van Stryp** from South Africa to New Zealand.

Jaco is currently looking for full-time employment in New Zealand as he and his family are intending to live here permanently. He is a qualified professional and has excellent experience and referees.

The policy instructions of Immigration New Zealand for the Accredited Employer Work Visa require a job offer and job check (token) to exist for work visa applications prior to submission, and the process of obtaining a work visa will take approximately 20 working days from that point forward.

As part of working with Jaco, we will advise any potential employer on the immigration process to help the employer prepare the necessary documentation.

We fully support his endeavors to obtain work in New Zealand and kindly ask you to seriously consider him as a potential candidate.

Please find attached Jaco's CV which highlights his skills and achievements. If you have any questions regarding his eligibility for a visa, please do not hesitate to contact me.

Yours sincerely

Vanessa Kwong-Syse
